

# building basics

## link lingo

**Y**

**O**

**X**

**hub**

**90°**

**135°**

**line**

**dot**

---

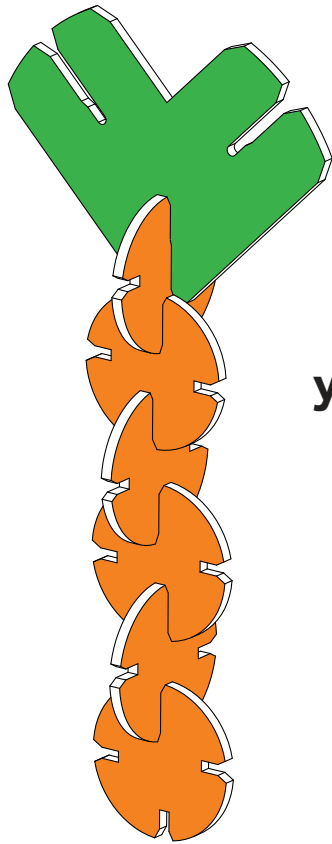

## good to know

**YOXO is pronounced "yock-so".**

**YOXO pieces are called links.**

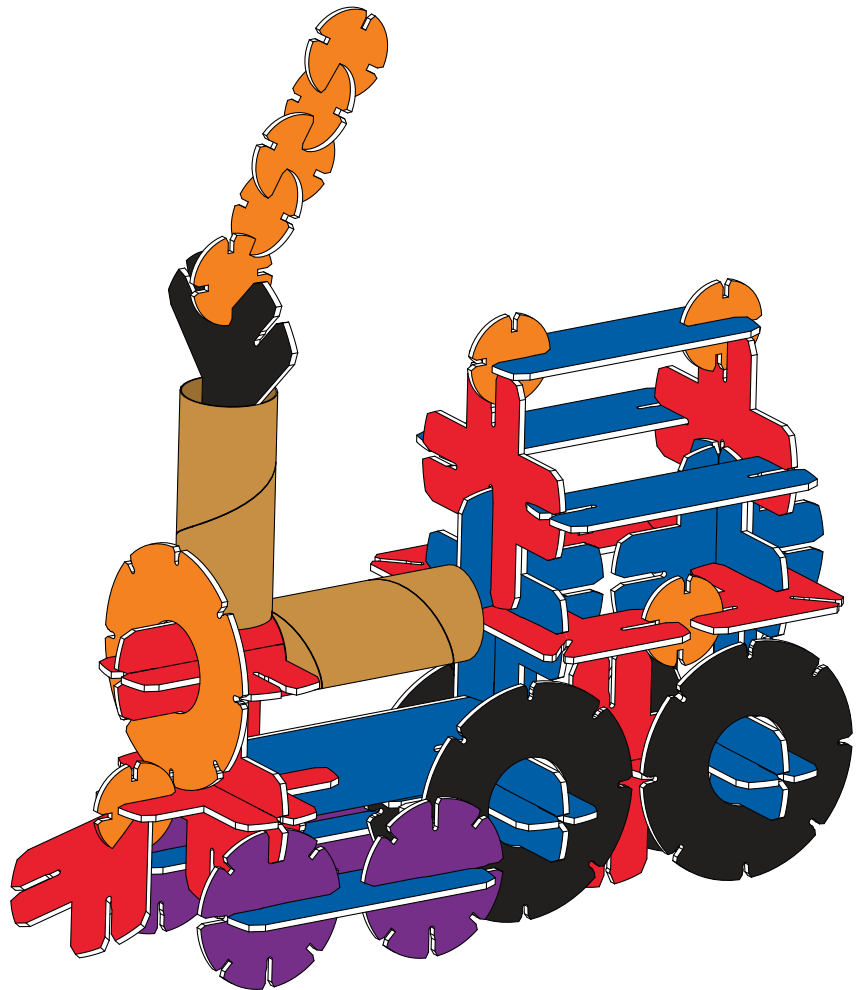

**Links come in many colors, shapes and sizes.**

**Links fit together in endless ways.**

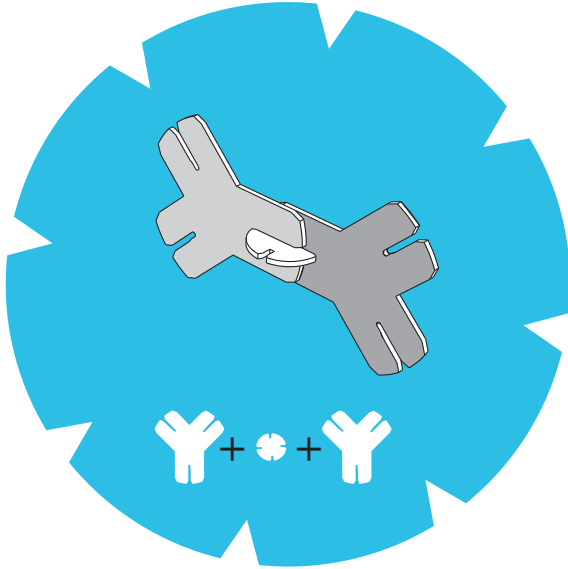

you can build something  
**simple**

or you can  
build something  
**complex**

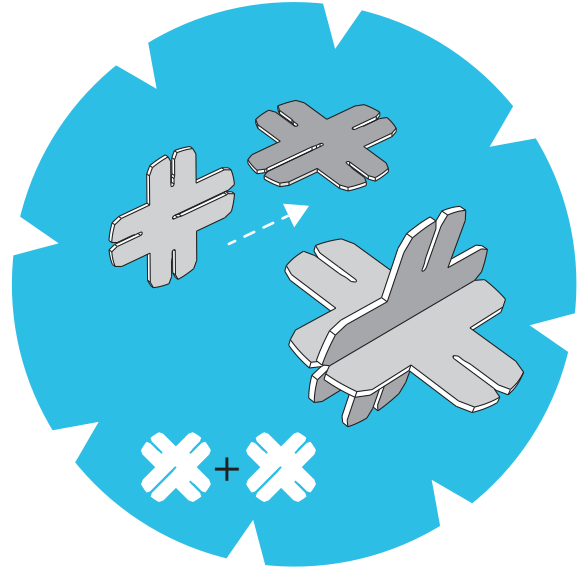

# link connections

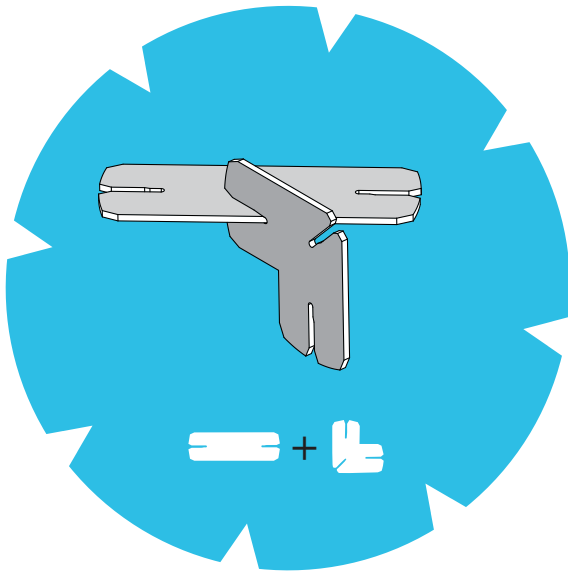

There's no wrong way to YOXO,  
but some connections are stronger than others.

**any two links + a dot**

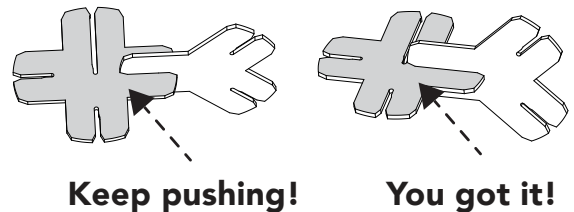

**any two links  
connected slot to slot**

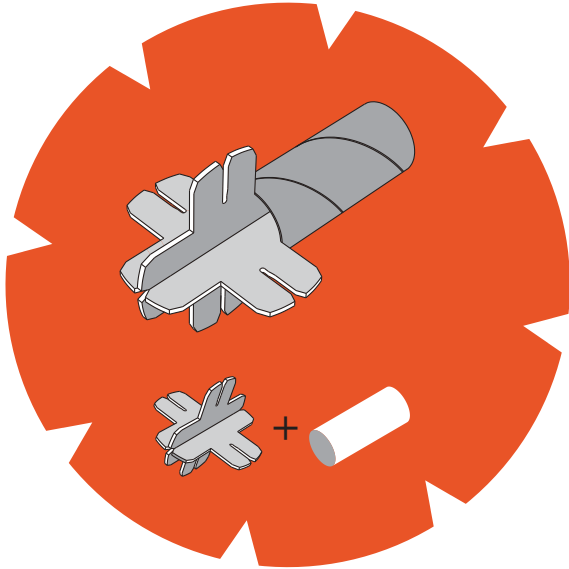

**any link slot connected  
to any link edge**

**Push links together  
until you can't  
push any farther!**

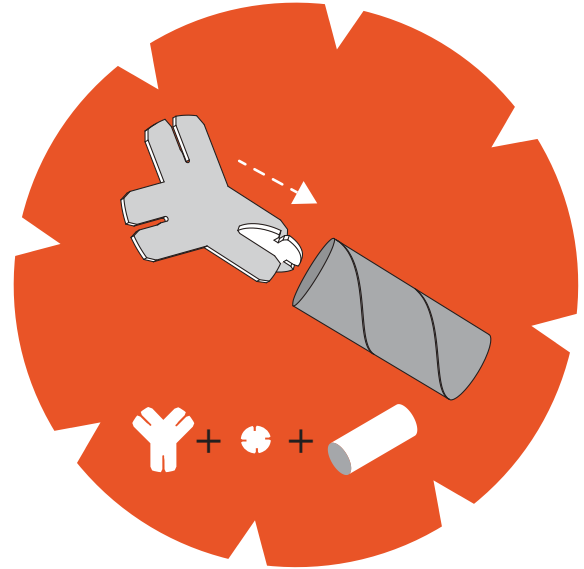

# tube connections

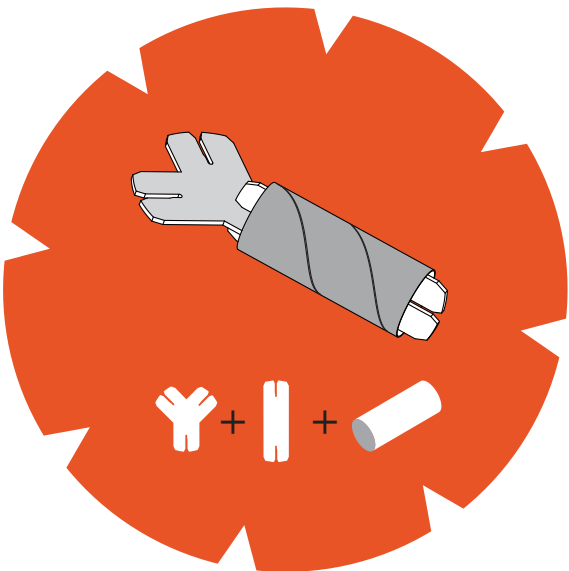

Always use two links inside a tube!

**two X links + a tube**

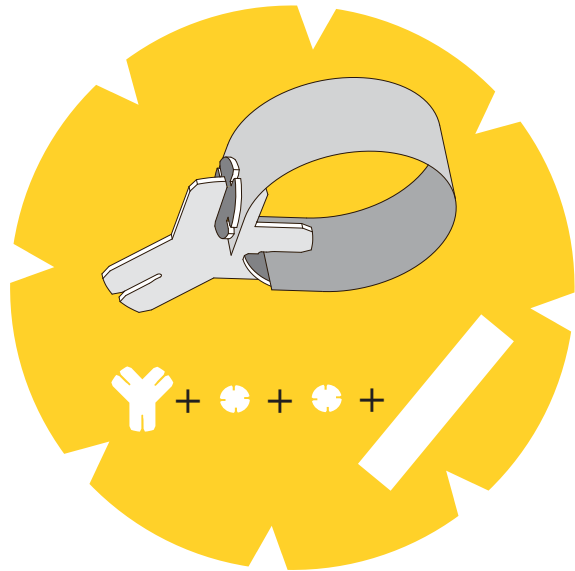

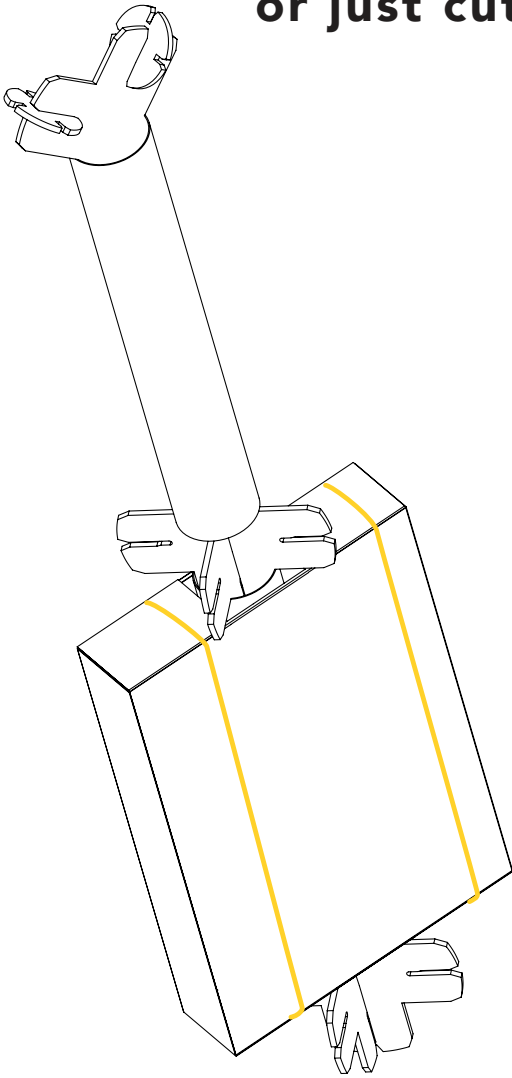

**any link + a dot + a tube**

**any link + a line + a tube**

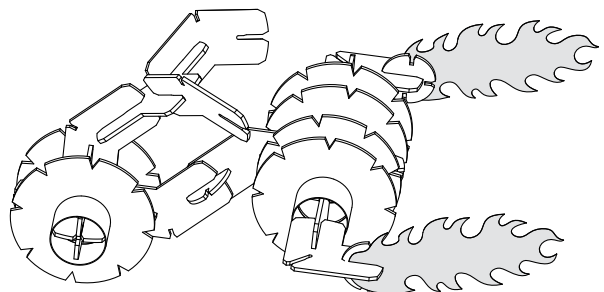

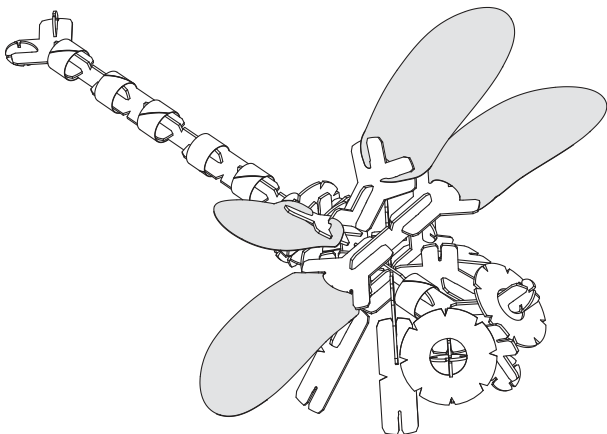

## cereal box connections

You can use the whole box,  
or just cut out what you need.

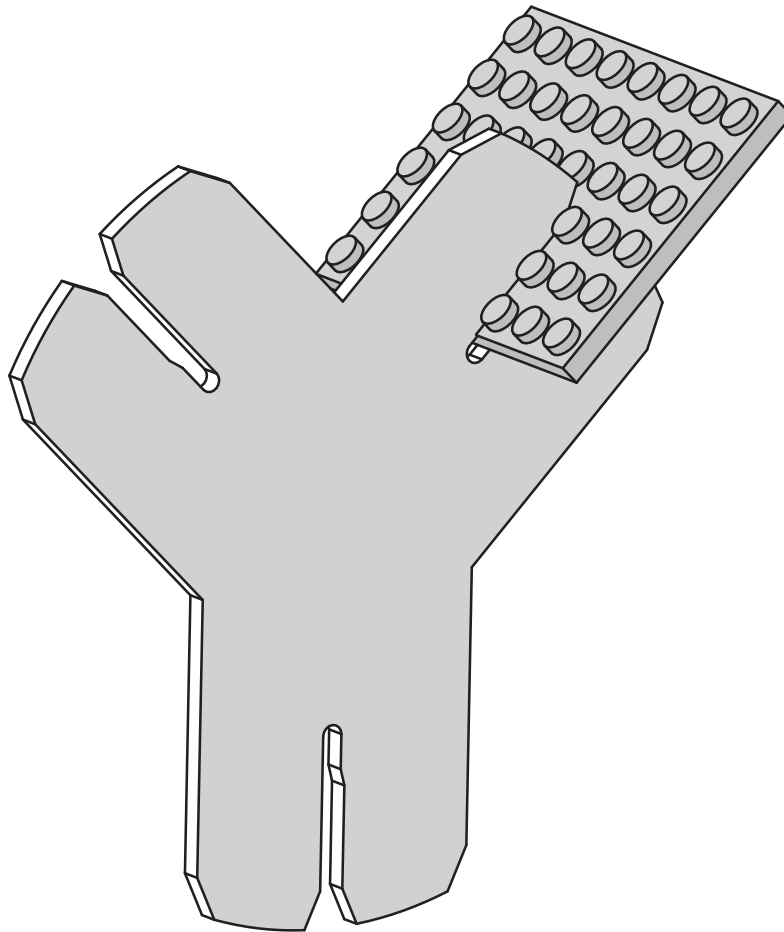

---

**Add different shapes to your builds!**

**even more connections**

**YOXO connects to popular  
building toys like LEGO®**
